H-Track Printer

Rotogravure Printing System for Tablets & Capsules

The H-Track Printing Machine is a flatbed printing machine that has the ability to ink print one side of a tablet, soft gelatin capsule, or caplet. The H-Track comes with an adjustable feed hopper for maximum fill rates and has a production output of 120,000 to 180,000 pieces per hour. The machine is equipped with a bulk hopper to maintain high production speeds.

Features

- Single sided printing
- Adjustable hopper for maximum fill rate
- Servo drive system for precision print registration
- Quick change tooling
- Swingarm 15" touchscreen HMI
- Wi-Fi connectivity
- Batch recording
- Data transfer capability
- 21 CFR Part 11 Compliant
- CE and UL certified

Capabilities

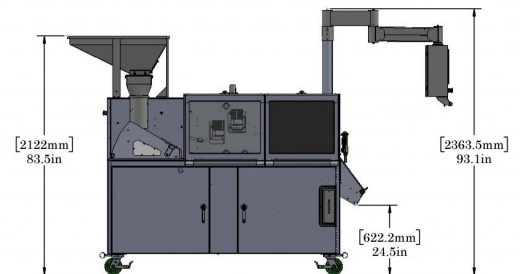

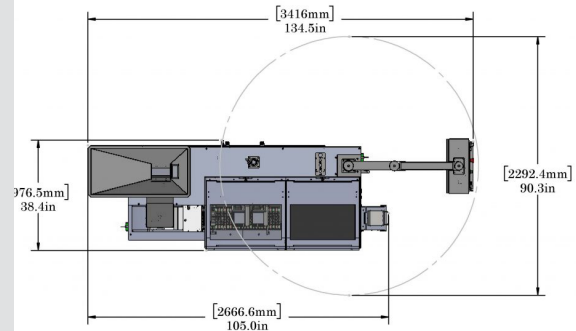

- Output Up to 180,000 / Hour
- Single Sided Printing with independent graphics for each side
- Single Sided marking using time proven rotogravure printing
- Ability to print alpha-numeric text or graphic logos
- Ability to print with solvent or water based ink solutions
- Ability to print in multiple ink colors

Options

- Vision inspection system with single piece rejection
- Ink Viscosity System
- Rubber Roll Cleaning System
- Validation document packages
- Floor level infeed bulk conveyor
